

# VELUX flat-roof smoke ventilation window CSP

Glazing 73FQV

The flat-roof smoke ventilation window CSP will automatically open in case of fire and meets all relevant EU legislative requirements. The window can be opened for fresh air when ventilation is needed. A burglar-proof construction provides additional security and a laminated inner pane prevents glass from splintering in the event of breakage.

- Automatically opens in case of fire in accordance with EU legislative requirements.
- Easily open your VELUX electric flat-roof window for fast access to fresh, outside air.
- Heavy-duty scissor opening mechanism is designed for many years of reliable operation.
- Improve your overall comfort with the low-energy double-glazed glazing with two energy coatings.
- Enjoy the security of our top-rated security glazing, which provides class 2 burglary resistance.
- Tilted interior frame design increases the amount of daylight that enters your room.
- Automatically opens in case of fire, in accordance with EU legislation, and can also be opened via a ventilation switch to let in fresh air.

## Application guidance

---

The CSP electric smoke ventilation base unit can be installed with all ISD Dome top units within the roof pitch range of 0° to 15°. ISG 2093 Standard glass top unit is not compatible.

## Available sizes and daylight area

---

|         | 1000 mm                           | 1200 mm                           |
|---------|-----------------------------------|-----------------------------------|
| 1000 mm | CSP<br>100100<br>(0.70)<br>[0.27] |                                   |
| 1200 mm |                                   | CSP<br>120120<br>(1.07)<br>[0.41] |

All measurements are in mm. ( ) = Effective daylight area, m<sup>2</sup> [ ] = Geometric free area, m<sup>2</sup>

\*A=large sizes with glazing variant -A

## Net Weight

---

Please note that a complete flat roof window consists of a top unit and a base unit supplied separately. The total weight of the complete solution must therefore be calculated by adding the unit weight of the top unit and the unit weight of the base unit, as specified in their respective data sheets.

|                 | <b>100100</b> | <b>120120</b> |
|-----------------|---------------|---------------|
| Net Weight (kg) | 85.954        | 124.115       |

## Cross section dimensions

Please note that the view of the cross section is from bottom to top.

| Width |                             | 100  | 120  |
|-------|-----------------------------|------|------|
| Vw    | Visible pane width          |      |      |
| Lw    | Inside groove measure width | 959  | 1159 |
| Rw    | Roof opening width          | 1000 | 1200 |

NPD: No performance determined

## Glazing structure

| Glazing unit  | Variant composition  |
|---------------|--|
| Double-glazed | 7.5mm laminated float glass - 14.5mm Argon - 4mm float glass |

## Blinds and awnings

---

## Compatibility

---

The electrically vented base unit for smoke ventilation CSP is compatible with an acrylic or polycarbonate dome top unit ISD in either clear or opaque finish.

Installation accessories: Extension kerb ZCE 0015/1015, securing kit for roofing felt ZZZ 210 and lining LSF 2000.

Compatibility with blinds: Solar-powered anti-heat blind MSG (depends on regulation).
