

VELUX GGL/GGU Roof Window suggested installation in roofs with roof pitch less than 15 degrees

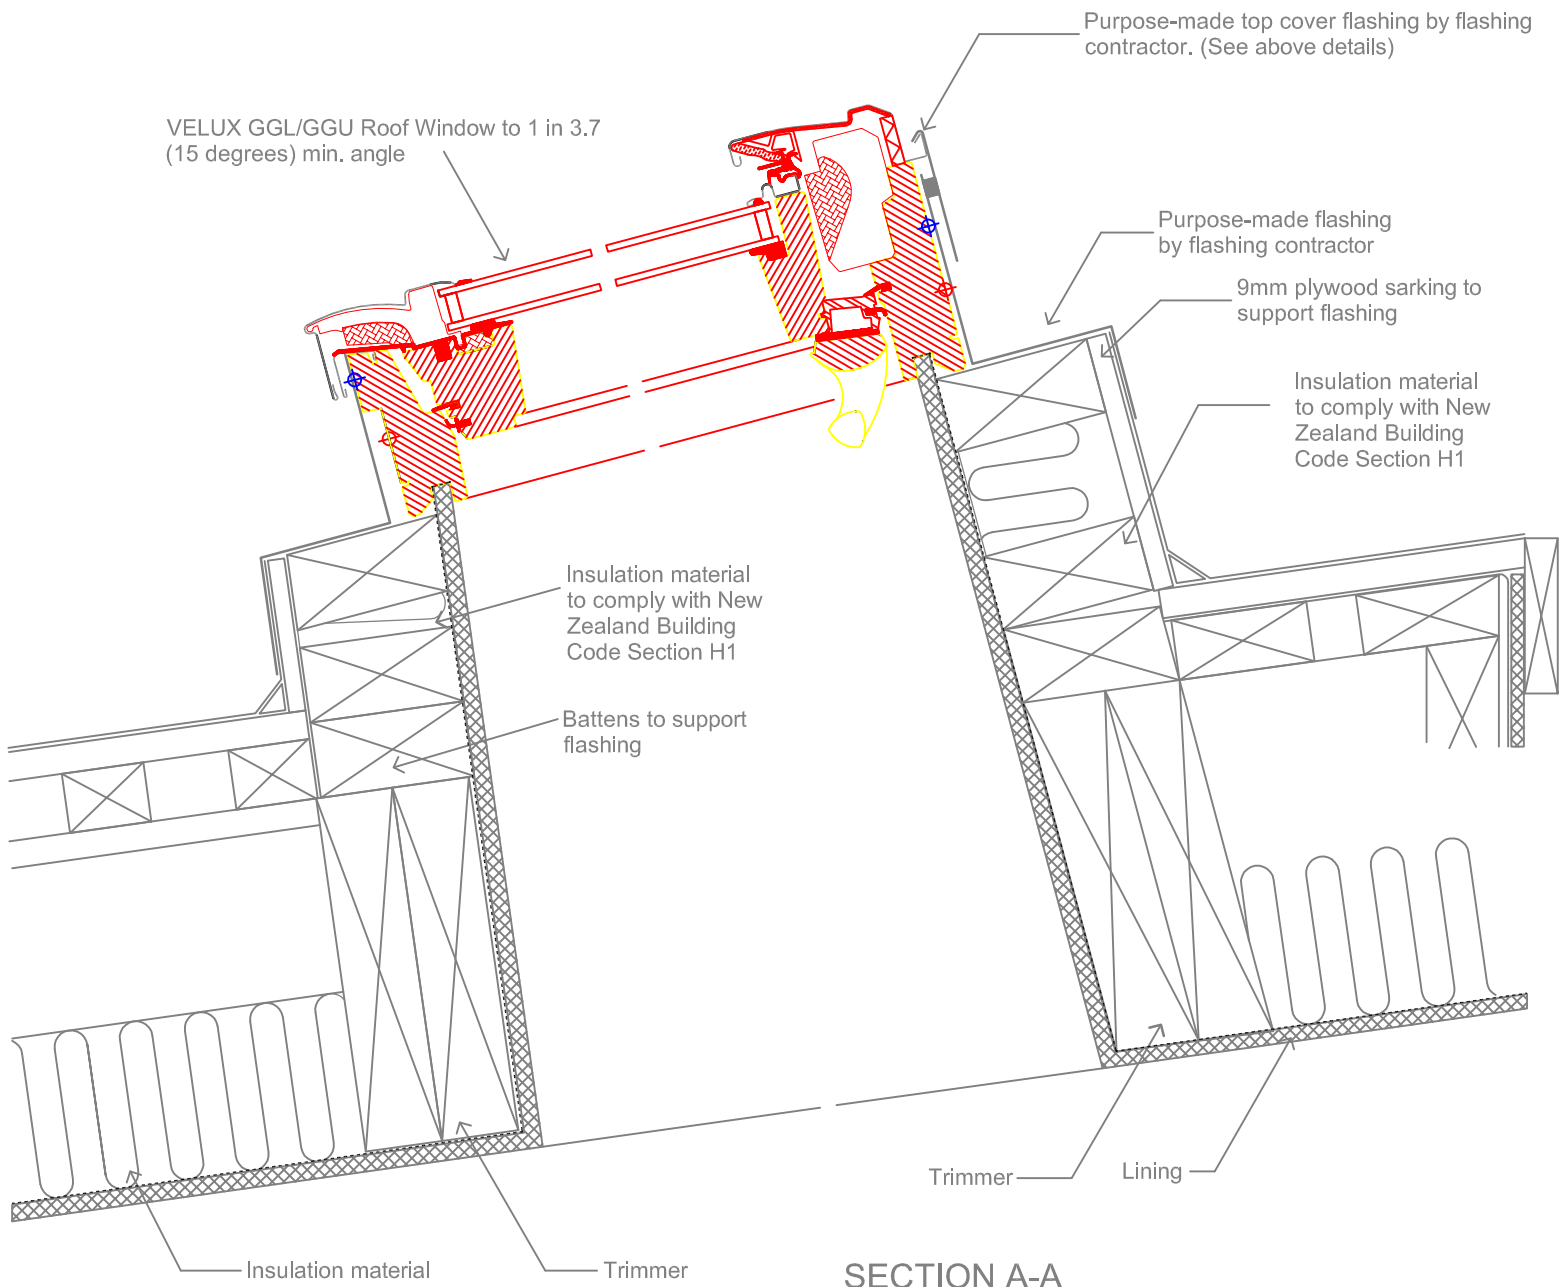

For roofs with roof pitches less than 15 degrees, the VELUX GGL/GGU Roof Window must be installed to a min. 15 degrees

A purpose made flashing designed to meet the conditions set out in Section E2 of the New Zealand Building Code shall be manufactured and installed by a specialist flashing contractor. This flashing must be guaranteed against weather-tightness by the specialist flashing contractor.

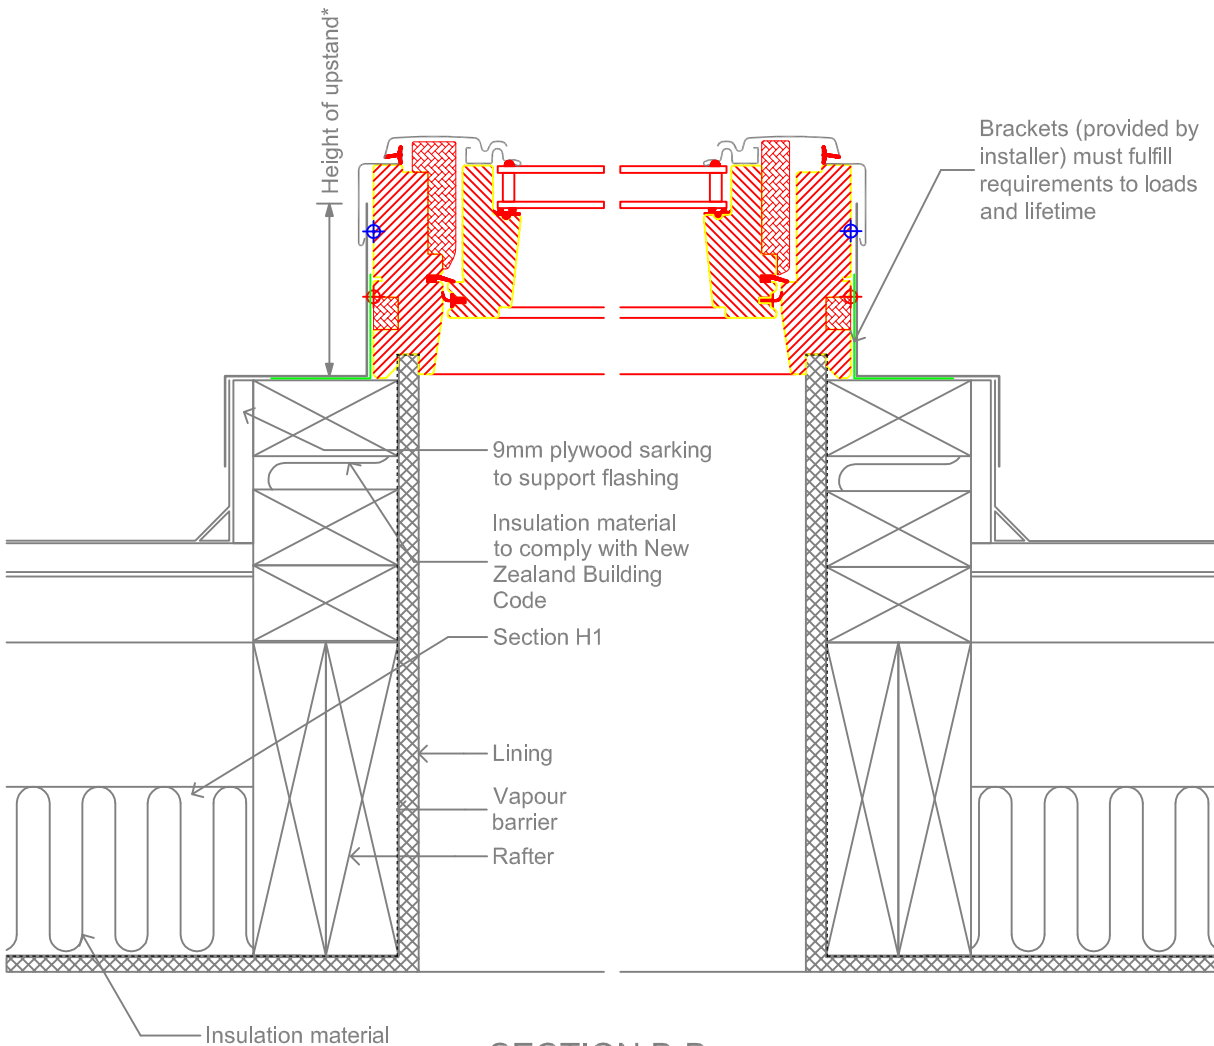

Insulation material meeting the requirements of NZBC/H1 shall be provided in all cavities of the light well structure
