Transforming spaces into favourite places

We all look for the perfect place where we can relax, recharge and feel content – or even be more productive. Often, without us noticing, it is a place filled with daylight and fresh air.

For over 80 years, the VELUX Group has helped people transform spaces using daylight and fresh air through the roof. By creating brighter, healthier, more sustainable places to live, work, learn and play, we enable a better everyday life for people around the world.

Our award-winning roof windows can fit any roof – flat, pitched, old or new – and can be accessorised with VELUX blinds and shutters. You can even add more space to your home with a VELUX Roof balcony or upgrade your roof windows to VELUX ACTIVE with NETATMO - our intelligent home solution.

VELUX roof windows are built to last. We take pride in our craft and high-quality products. But what you may not see is that VELUX roof windows are part of an ambitious sustainability strategy. We have set targets to reduce our carbon emissions in line with the Paris Agreement's most ambitious emissions reduction pathway. In addition to this, we plan to offset the equivalent of our historical carbon emissions. In other words, there are several reasons to choose a VELUX roof window.

Solutions for sustainable living

Sustainability has always been in our nature and we are committed to new, pioneering measures, based on science and examined by experts.

We will dramatically reduce our future CO₂ emissions, shifting our power supply to 100% renewable energy and making our production significantly more energy efficient. We will also be fundamentally changing the materials we use for our products to make them more sustainable.

By 2030, we will reduce the carbon footprint of our products by 50%. We will be a climate-neutral company and will have halved CO₂ emissions across our entire value chain. Simultaneously, by 2041, we will have captured the same amount of CO₂ that we have emitted since the company was founded.

In order to achieve this, we have formed a 20-year partnership with WWF (World Wide Fund For Nature) on forest conservation and restoration projects around the world.

When you buy a VELUX solution, you are part of this journey. You will find yourself at the forefront of roof window technology. For example, through energy-efficient triple glazing or the use of smart, sensor-based roof window solutions that create a self-regulating indoor climate for healthy living indoors.

We all need a healthy home – including Mother Nature. With our commitment to become a more sustainable company and contribute to a greener construction industry, we are doing everything we can to achieve this.

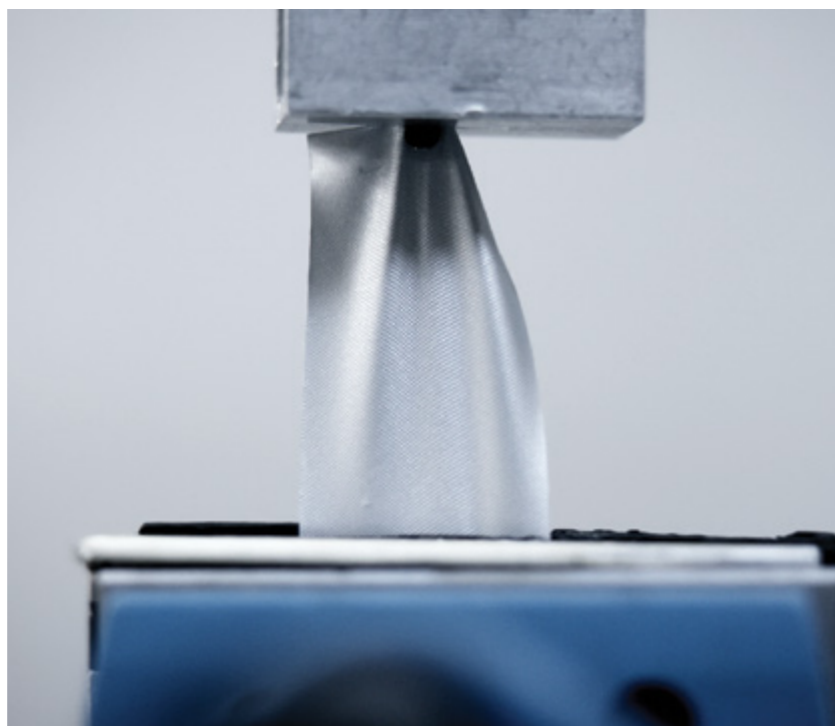

Why VELUX®

Your VELUX roof windows deserve original blinds and shutters, for a perfect fit, beautiful design and long-lasting performance.

1 Designed and tested for daily life

All VELUX products are **designed and tested for real life**. Our blinds and shutters are rigorously tested by being opened and closed thousands of times. They are exposed to extreme weather conditions to ensure the blinds retain their colour. What's more, we pull, tug and squeeze the material to ensure your new blind keeps its shape and stands the test of time. Then, when we are happy with the design, our European factories start production.

2 Easy to install and use

Original VELUX blinds and shutters are **tailor-made for your VELUX roof windows**. This means they always fit perfectly and are easy to install with no measuring or cutting. The elegant and slim-frame design **ensures a perfect looking result**, making the blind almost invisible when not in use.

3 Your colours for your home

Enjoy an extensive choice of blind and shutter types in all styles and colours. You can even create your own customised blind with our **Colour by You** collection - all with a choice of white or brushed aluminium side rails.

4 For safety and sustainability

VELUX blinds have **child-safe cordless designs** to ensure safety in your home. All our interior blinds are **OEKO-TEX® certified** and guaranteed to be free from harmful substances. VELUX anti-heat shutters have dual functionality, protecting your room from overheating while actively deterring break-ins.

Discover our timeless collection

From classic to trendy and light dimming to complete blackout, the VELUX blind collection features stylish colours, subtle patterns and a range of features to match all room types.

The VELUX blind collection is developed in partnership with leading international trend experts. Choose from a large variety of fabrics and colours in classic or more modern designs.

We offer three different **roller blinds** with flat fabrics, two types of **pleated blinds**, as well as our classic **Venetian blinds**. All varieties come in a range of colours for you to mix and match by choosing different or similar colours across your rooms and blind types.

Your choice of blind depends entirely on your personal style, the room type, and whether you are looking to create a complete blackout or light dimming effect. Explore the following pages for more inspiration.

Customise the colour of your blind
If you cannot find the exact colour to match your taste or interiors, the Colour by You collection gives you thousands of additional colours to choose from.

Read more on page 37 or at veluxblindsdirect.co.uk/colour

Clean all white look

VELUX blinds are available with high-quality side rails in your choice of either brushed or white painted aluminium.

Brushed aluminium works exceptionally well with our lacquered wood-finish roof windows while the white painted rails become almost

invisible when paired with white VELUX roof windows. Furthermore, thanks to their UV protection, the bright white will stay unaffected by sunlight.

The side rails are easy to install and designed to complement your VELUX roof windows beautifully.

Blackout or translucent blinds?

Blackout blinds block incoming light, making them the preferred choice for bedrooms and children's rooms, where darkness is needed for a good night's sleep.

Translucent blinds allow a dimmed light to enter into the room while effectively preventing glare. Translucent blinds are suitable for many room types like living rooms, home offices and game rooms.

Protect your home and block the heat outside

Keep your home comfortable with VELUX exterior blinds and shutters, designed to shield your space from the heat and dazzling sun before it even reaches your roof windows.

Why choose exterior heat protection?

Optimal control of daylight and indoor climate

- Protect your home from direct sunlight whenever you want.
- Highly effective indoor temperature control, reducing energy costs for heating or cooling.
- Benefit from an additional layer of insulation during colder seasons.
- Keep the indoor temperature cool and comfortable during summer.
- Helps you to relax by reducing noise from the outside.

Durability and longevity

- VELUX anti-heat blinds and shutters are built to last and add long-lasting value to your home.
- Made from high-quality materials with up to a 5-year guarantee.
- Designed to withstand the harshest weather conditions whilst maintaining their functionality and visual appeal for years to come.

Great design and hassle-free installation

- Our products are designed to match your VELUX roof windows perfectly, allowing full operation thanks to their position on the outer sash.
- Simple installation from inside the room.

Anti-heat blind – keep cool with a view to the outside

With transparent mesh fabric, anti-heat blinds block the sun's heat whilst still maintaining a view to the outdoors. Perfect for glare-free workdays from the home office or cool afternoons in the living room.

Anti-heat blackout blind – comfort day and night

The Anti-heat blackout blind's durable, light-tight fabric blocks heat and daylight effectively, allowing you to dim the living room for a movie night or black out the bedroom for a good night's sleep.

Anti-heat blackout shutter – complete year-round comfort

The Anti-heat blackout shutter's sturdy exterior provides the best heat protection and blackout capabilities, enabling you to stay cool in summer, effectively insulate your home in winter and sleep soundly through stormy nights.

Read more about the full range on page 20.
5-year guarantee on all shutters and automated anti-heat blinds, 3 years on manual anti-heat blinds.

Select your level of comfort

From manual to fully automated blinds and shutters

Enjoy seamless remote control with VELUX solar or electric blinds and shutters

Upgrade your VELUX solar or electric blinds and shutters with **VELUX Intelligent home control** solutions for smartphone control and fully automated heat protection

Manual operation

Simple hands-on solution

Your manual VELUX blinds come with a clever and discreet control bar that lets you adjust the blind comfortably.

The blind runs smoothly and can be positioned anywhere on the roof window.

Remote-controlled

Smarter controls with VELUX solar or electric blinds and shutters

Choose VELUX solar or electric blinds and shutters to simplify your home living. These products come with a ready-to-use Wall Switch for remote operation, and they can easily be upgraded with a range of intelligent home control solutions to cover everyone's needs.

Select VELUX solar blinds and shutters for your manual or solar roof window. Installation is easy because there's no need to run cables.

Select VELUX electric blinds and shutters for your electric roof windows.

Intelligent home control

Let intelligent home control take care of your indoor climate

Unlock the full potential of your solar or electric blinds and shutters with VELUX Intelligent home control solutions.

VELUX Touch makes it easy to control multiple VELUX solar or electric roof windows, blinds and shutters, with no dependency on Wi-Fi.

VELUX App Control lets you control your VELUX solar or electric products right from your phone – at home or on the go.

VELUX ACTIVE with NETATMO automatically improves your indoor climate and offers seamless control of your VELUX solar or electric products by smartphone or voice commands. To shield your home from excessive heat, you can simply let the system rely on the built-in indoor climate sensors and live weather forecast for automatic operation of your anti-heat blinds and shutters.

See more on the page 14 or at velux.co.uk/smarthome

Easy control options for your VELUX solar and electric products

Our controls make it easy for you to adjust your roof windows, blinds and shutters with the simple touch of a switch or your smartphone. Say goodbye to manual adjustments and experience the easy way of managing your roof windows, blinds and shutters.

Basic Wall Switch

VELUX Wall Switch

The Wall Switch lets you conveniently open, stop and close VELUX solar and electric products.

- Allows control of one product per switch.

Included with the purchase of any VELUX solar or electric product

Multiple product switch

VELUX Touch

VELUX Touch makes it easy to feel perfectly comfortable at home by ensuring every solar or electric roof window, blind and shutter is always within easy reach. Let in a cool breeze when you need a breath of fresh air, shield your home from the midday sun or close the blinds for a movie night – all with a single master switch.

- Control multiple VELUX solar and electric products in the home.
- 15-minute ventilation timer.

Installing your genuine VELUX blinds is easier than you think

Install your genuine VELUX blinds in 15 minutes

Installing VELUX blinds requires no measuring, trimming, cutting or extra tools. They are made for a perfect fit and everything you need is included in the box.

No need to cut or trim – just click on

Your VELUX roof windows have pre-installed mounting brackets for your blinds. Simply click on the original VELUX blind and add the side channels provided.

No need to measure

You can find your roof window's type and size on the roof window sash – see how on page 48. Then you can be sure that your new blind fits your roof window perfectly without having to take any measurements.

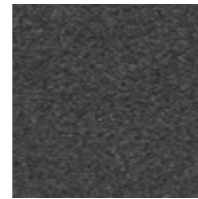

Easily replace your old blinds

It is straightforward to replace tired blinds with new ones from VELUX. You can still order blinds that fit almost every generation of VELUX roof window.

Duo blackout roller blind

VELUX Duo blackout roller blind is a blackout roller and a translucent pleated blind in one. It offers the best of both worlds - blackout at night and softly diffused light during the day.

- Two ways to control light in one solution – excellent blackout to darken the room or soften incoming light.
- Choose any colour blackout roller blind combined with white pleated blind (1016).
- Available with white or brushed aluminium side rails.
- Available with manual operation.
- Combine with an exterior Anti-heat blind or shutter for effective heat protection. Read more on page 20.

Installation

- Quick and easy installation with pre-fitted brackets.

Certifications

- Standard 100 by OEKO-TEX (1076-184) – contains no harmful substances.
- STeP by OEKO-TEX (22002567) – sustainable textile production.

Insect screen

Enjoy fresh air without the unwanted visitors with a VELUX Insect screen. The screen is simple to operate, and can be combined with any other VELUX interior or exterior blind. It has transparent net fabric and stows neatly away in the slim top casing when not in use.

- 100% insect-proof material.
- Transparent net fabric does not obstruct your view.
- Durable, wind-resistant fabric for long-lasting performance.
- Standard 100 by OEKO-TEX (1076-184) – contains no harmful substances.
- STeP by OEKO-TEX (22002567) – sustainable textile production.

Determine the correct size

- Measure the inner wall width (A) and height (B) to find the size code and price of your insect screen in the table below.
- If you have two heights (B) or heights above 2400mm – two insect screens and one connector set ZOZ 157 SWL are needed.
- **IMPORTANT:** Insect screen size codes may differ from window size code, please measure (A) and (B) and find correct size code in the table below before ordering.

Installation

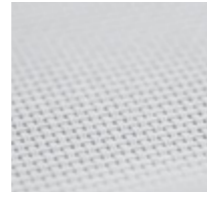

- Quick and easy installation.

Blinds for curved and flat glass rooflights

Anti-heat blind

The Anti-heat blind provides light dimming and heat protection to maintain a cool and comfortable room. The blind is discreetly placed inside the rooflight, and is easily installed from the roof when installing the window.

- Reduces overheating.
- Semi-transparent fabric for light control and sky view.
- Solar-powered blind with remote control.
- Not compatible with Blackout blind.

Blackout blind

VELUX Blackout blind for glass rooflights blocks outside light anytime and is perfect for bedrooms. It is discreetly placed inside the rooflight and easily installed from the roof when installing the window.

- Perfect sleep – day or night.
- 99.9% blackout.
- Great for bedrooms and media rooms.
- Solar-powered blind with remote control.
- Not compatible with Anti-heat blind.

Insect screen

VELUX Insect screen for glass rooflights lets you enjoy fresh air and a view to the sky without the distraction of insects. It comes in a contemporary white design and is easy to install and simple to remove for cleaning.

- Fresh air and 100% insect-proof.
- Durable, transparent net fabric does not obstruct your view.
- Can be combined with an Anti-heat blind or a Blackout blind.

Important!
Remember to install blinds at the same time as rooflights

Anti-heat blind

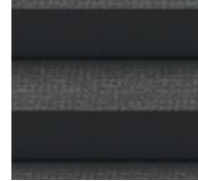

6090

Blackout energy pleated blind

1045

1047

Blinds for dome with glazing*

Anti-heat blind

VELUX Anti-heat blind provides light dimming and heat protection so your indoor temperature stays cool and comfortable. This makes it perfect for living rooms with activity during the day.

- Reduces solar heating.
- Semi-transparent fabric lets in natural light.
- Available with solar-powered operation, including app and remote control.

Blackout energy pleated blind

VELUX Blackout energy pleated blind for flat roof windows darkens the room and protects against cold. This makes it the ideal choice for bedrooms and living rooms.

- Blackout and insulating effect.
- Available with solar-power or electric operation, including app and remote control.
- Standard 100 by OEKO-TEX® (1076-184 DTI) – contains no harmful substances.
- STeP by OEKO-TEX® – sustainable textile production.

* Also compatible with curved and flat glass roof windows bought before April 2022. Solar-powered blinds are not compatible with opaque top unit.

Order your new VELUX blind or shutter in five easy steps

1

Locate your roof window type and size

Find your roof window type and size by checking the type sign placed either on the left or right side of the roof window frame when it is open.

See picture below for placement of type sign.

2

Select blind or shutter type

Decide on the type of blind or shutter: blackout, light adjustment, heat protection, etc.

3

Select operation

Select solar, electric or manual operation, depending on the placement and type of roof window.

4

Select colour

Each of our blind colours has its own colour code, which you can see on the respective blind pages.

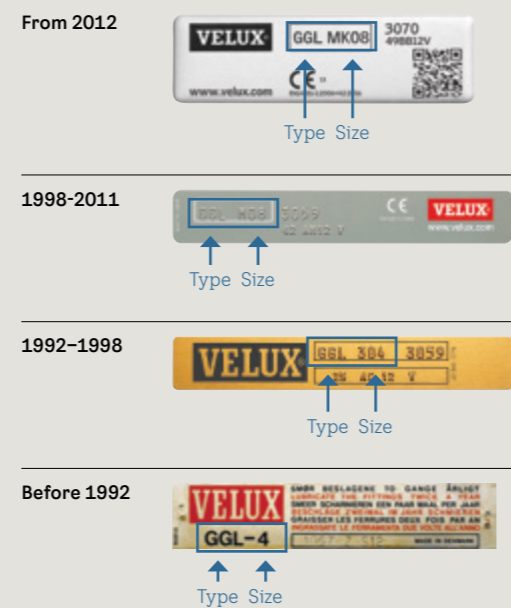

You can order free fabric samples at veluxblindsdirect.co.uk

Please note: Precise colour may vary from the printed samples.

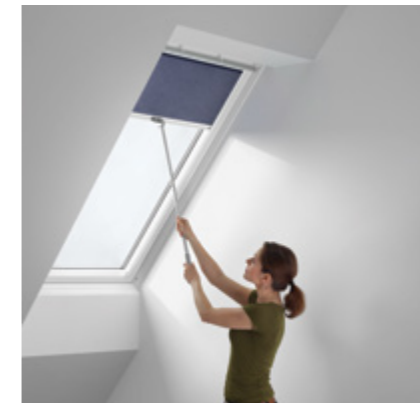

5

Place your order

Order on veluxblindsdirect.co.uk, or by speaking to one of our dealers or a customer service representative.

Extras for your blinds and shutters

Rod control

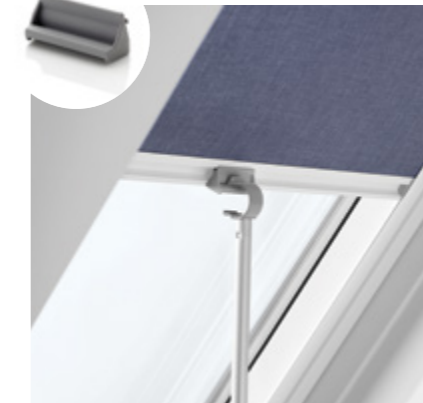

ZCZ 080
80cm

£16.80

ZCT 200 telescopic
100-180cm

£36.00

The rod makes it easy to operate out-of-reach manual blinds.

Rod adaptor

ZOZ 085

£9.60

Adaptor for manual blinds with control bars supports easy operation with the rod.

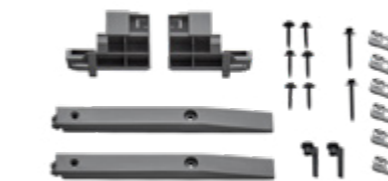

Mounting brackets

ZOZ 230

£6.00

For installation of blinds on older VELUX roof windows without pre-installed mounting brackets.

Installation kit

ZOZ 238

£31.20

For installation of anti-heat blackout blinds and electric anti-heat blinds (SSS, MSL or MML) on VELUX roof windows from before 2001.

Installation kit

ZOZ 229S

£54.00

For installation of anti-heat blackout blinds and electric anti-heat blinds (SSS, MSL or MML) on VELUX electric top-hung roof windows.

Dual solar switch

ZOZ 246

£56.40

Dual solar switch allows charging of both shutters and anti-heat blinds on solar-powered VELUX roof windows. Dual solar switch is required if the shutter or anti-heat blind is size C or F and installed on a solar-powered VELUX roof window.

Customer service

Could you use some advice when selecting your blind, or do you have a question about a particular product? Whatever your question, we're here to help and strive to respond promptly to all requests.
