

Information on the use of wood preservatives in VELUX wooden windows

This product contains wood treated with propiconazole. It must not be used for furniture and play structures such as playgrounds.

Use and Maintenance

VELUX wooden windows are treated with propiconazole and a topcoat to protect the product. In the case of sanding during repair on topcoat, dust must be collected and disposed of appropriately and respiration equipment must be worn. After grinding we recommend that a new topcoat is applied over the sanded area.

Disposal of product

It's important to note that the product is not suitable for use as furniture or play structures, as per Biocidal Product Regulation, implementing regulation 2023/2596 (EU).

Treated or painted wood must be disposed of according to local regulations.
