Transforming spaces into favourite places

We all look for the perfect place where we can relax, recharge and feel content – or even be more productive. And often, without us noticing, it is a place filled with daylight and fresh air.

For over 80 years, the VELUX Group has helped people transform spaces using daylight and fresh air through the roof. By creating brighter, healthier, more sustainable places to live, work, learn and play, we enable a better everyday life for people around the world.

Our award-winning roof windows can fit any roof – flat, pitched, old or new and can be accessorised with VELUX blinds and shutters for light and temperature control. You can even add more space to your home with a VELUX Roof balcony or upgrade your windows to VELUX ACTIVE with NETATMO – our intelligent home solution.

VELUX roof windows, blinds and shutters are built to last. We take pride in our craft and high-quality products. But what you might not see is the work we're doing to reduce our environmental impact and the ways we support our customers in their efforts to do the same. We have set targets to reduce our carbon emissions in line with the Paris Agreement's most ambitious emissions reduction pathway. In addition, we aim to remove all plastic from our packaging and ensure it's 100% recyclable, making waste management simpler. In other words, there are several reasons to choose a VELUX roof window.

Our contribution to a more sustainable building sector

With the building industry accounting for over a third of CO₂ emissions, the need for change is urgent. We aim to lead the way and show how rethinking buildings can accelerate that transformation. Our initiatives include:

- Reducing emissions from our own operations by 100% (Scope 1 & 2) by 2030.
- By 2030, 50% reduction of CO₂ from our value chain (Scope 3) compared with baseline year 2020.
- All production sites to send zero production waste to landfill by 2030.
- Reduce and remove the equivalent of our historical CO₂ emissions through forest projects.
- Transition to single-material, paper-based packaging that can be disposed of in one waste stream for recycling.

Although it sounds simple, transitioning from plastic to paper-based packaging presents many challenges. The process for our main roof windows has taken over two years and involved design professionals, engineers and production companies.

Extensive testing showed that paper-based materials with honeycomb panels could withstand stacking pressure, knocks and blows, as well as humidity and temperature changes. In Europe, our new paper-based packaging has saved more than 900 tonnes of EPS/plastic in 2023 compared to 2021.

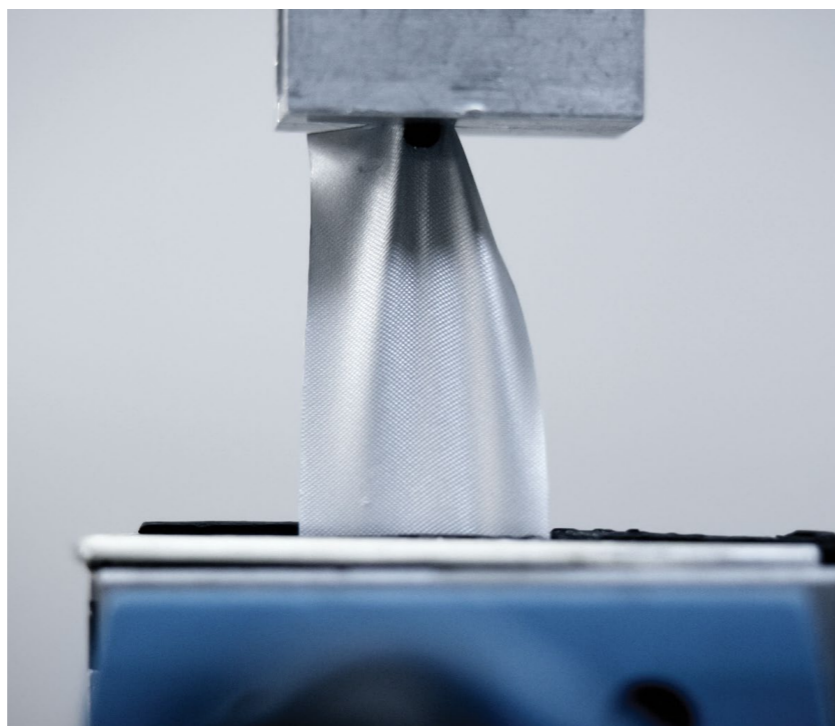

Our goal for 2030 is to halve CO₂ emissions from our product production, the materials they use, and across our entire value chain. This means that a VELUX roof window in 2030 will have a significantly reduced carbon footprint compared to today. When you buy a VELUX solution, you are part of this journey.

Why VELUX®

Your VELUX roof windows deserve original blinds and shutters, for a perfect fit, beautiful design and long-lasting performance.

1 Designed and tested for daily life

All VELUX products are designed and tested for real-life conditions. Our blinds and shutters are rigorously tested by being opened and closed thousands of times. They are exposed to extreme weather conditions to ensure the blinds retain their colour. What's more, we pull, tug and squeeze the material to ensure your new blind keeps its shape and stands the test of time. Then, when we are happy with the design, our European factories start production.

2 Easy to install and use

Original VELUX blinds and shutters are tailor-made for your VELUX roof windows. This means they always fit perfectly and are easy to install with no measuring or cutting. The elegant and slim-frame design ensures a perfect result, making the blind almost invisible when not in use.

3 Your colours for your home

Choose from a wide range of blinds and shutters in various styles and colours. With our Colour by You collection, you can even customise your own blind, complete with a choice of white or brushed aluminium side rails.

4 For safety and sustainability

VELUX blinds have child-safe cordless designs to ensure safety in your home. All of our interior blinds are OEKO-TEX® certified and guaranteed to be free from harmful substances. VELUX Anti-heat blackout shutters offer dual functionality, protecting your room from overheating while actively deterring break-ins.

Discover our timeless collection

From classic to trendy styles, and light-dimming to complete blackout options, the VELUX blinds collection offers stylish colours, subtle patterns and a variety of features to match all room types.

The VELUX blinds collection is developed in partnership with leading international trend experts. Choose from a wide variety of fabrics and colours, available in both classic and modern designs.

We offer three different **roller blinds** with flat fabrics, two types of **pleated blinds**, as well as our classic **Venetian blinds**. All varieties are available in a range of colours, allowing you to mix and match different or similar colours across your rooms and blind types.

Your choice of blind depends entirely on your personal style, the room type, and whether you are looking to create a complete blackout or light-dimming effect.

Customise the colour of your blind

If you cannot find the exact colour to match your taste or interiors, the Colour by You collection gives you thousands of additional colours to choose from.

Read more on page 35 or at veluxshop.ie/colour

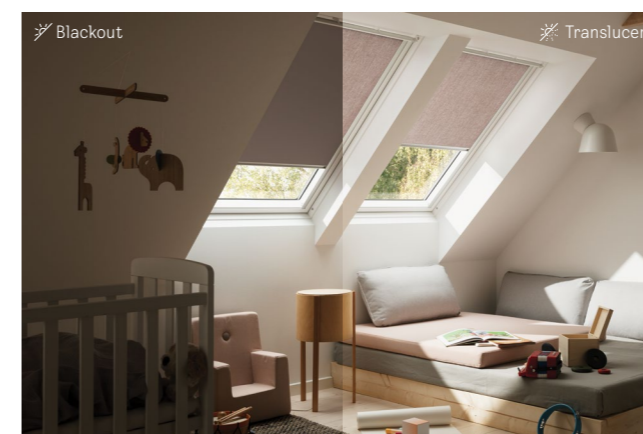

Clean all white look

VELUX blinds are available with high-quality side rails in your choice of either brushed or white painted aluminium.

Brushed aluminium works exceptionally well with our lacquered wood-finish roof windows while the white painted rails become almost

invisible when paired with white VELUX roof windows. Furthermore, thanks to their UV protection, the bright white will stay unaffected by sunlight.

The side rails are easy to install and designed to complement your VELUX roof windows beautifully.

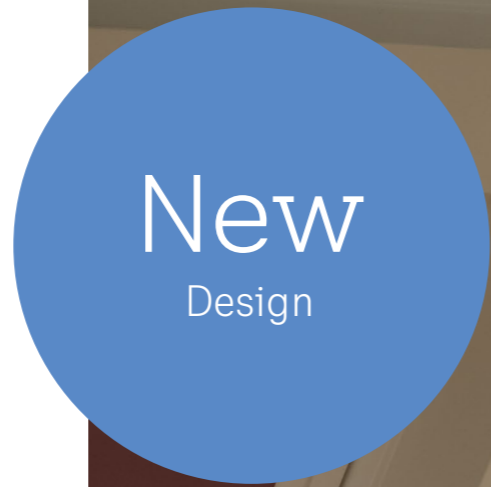

Blackout or translucent blinds?

Blackout blinds block incoming light, making them the preferred choice for bedrooms and children's rooms, where darkness is needed for a good night's sleep.

Translucent blinds allow a dimmed light to enter into the room while effectively preventing glare. Translucent blinds are suitable for many room types like living rooms, home offices and game rooms.

More flexible and intuitive than ever before

The new design of our solar and electric blinds range allows you to easily operate the blind either remotely or manually via a new slider, positioned directly on the product.

The new design offers a number of product benefits:

Optimised design

The slimmer profile along the bottom of the blind integrates seamlessly with the roof window, providing an unobstructed view and maximum daylight.

New, quieter motor

Regardless of operation, the motor runs almost without sound.

A solution to suit everyone

Available in a wide range of colours and fabrics including blackout, energy pleated and translucent.

Even longer guarantee

Now comes with an extended 5-year guarantee.

Unique design
Available in a wide range of colours.

Slimmer profile
Lets in maximum daylight.

Multiple operation
Operate remotely or manually via the slider.

Anti-heat blackout shutters, Anti-heat blinds and interior blinds for all year round comfort

VELUX roof windows fill your home with daylight and fresh air. Having the right weather and sun protection also ensures a pleasant indoor climate and helps save energy.

Exterior weather and heat protection

Choose Anti-heat blinds and shutters to create a shield between the sun's rays and the roof windows to prevent the direct sunlight from entering the home. Rain noise is also significantly reduced.

More information from page 24.

Tip Anti-heat blackout shutter + Blackout energy pleated blind

Up to 5.0°C* cooler in summer +
heat energy savings in winter.

Interior light control

Choose interior blinds to complement a room, soften incoming light or provide privacy or blackout to ensure a good night's sleep or a daytime nap. In the colder months, they will help to keep the room warm and create a cosy atmosphere.

More information from page 33.

Tip Add insect screens to enjoy fresh air without unwanted visitors

More information from page 49.

* Data from a simulated south-facing room with two VELUX GGU 70 roof windows in size MK06 (78.0 x 117.8cm), July - August 2023, recorded in London. Based on a study by VELUX 2023 on the effects of accessories in summer.

Select your level of comfort

From manual to fully automated blinds and shutters

Enjoy seamless remote control with VELUX solar or electric blinds and shutters

Upgrade your VELUX solar or electric blinds and shutters with **VELUX Intelligent home control** solutions for smartphone control and fully automated heat protection

Manual operation

Simple hands-on solution

Your manual VELUX blinds come with a clever and discreet control bar that lets you adjust the blind comfortably.

The blind runs smoothly and can be positioned anywhere on the roof window.

Remote-controlled

Smarter controls with VELUX solar or electric blinds and shutters

Choose VELUX solar or electric blinds and shutters to simplify your home living. These products come with a ready-to-use Wall Switch for remote operation, and they can easily be upgraded with a range of intelligent home control solutions to cover everyone's needs.

Select VELUX solar blinds and shutters for your manual or solar roof window. Installation is easy because there's no need to run cables.

Select VELUX electric blinds and shutters for your electric roof windows.

Intelligent home control

Let intelligent home control take care of your indoor climate

Unlock the full potential of your solar or electric blinds and shutters with VELUX Intelligent home control solutions.

VELUX Touch makes it easy to control multiple VELUX solar or electric roof windows, blinds and shutters, with no dependency on Wi-Fi.

VELUX App Control lets you control your VELUX solar or electric products right from your phone – at home or on the go.

VELUX ACTIVE with NETATMO automatically improves your indoor climate and offers seamless control of your VELUX solar or electric products by smartphone or voice commands. To shield your home from excessive heat, you can simply let the system rely on the built-in indoor climate sensors and live weather forecast for automatic operation of your Anti-heat blinds and shutters.

Installing your genuine VELUX blinds is easier than you think

Install your genuine VELUX blinds in 15 minutes

Installing VELUX blinds requires no measuring, trimming, cutting or extra tools. They are made for a perfect fit and everything you need is included in the box.

No need to cut or trim — just click on

Your VELUX roof windows have pre-installed mounting brackets for your blinds. Simply click on the original VELUX blind and add the side channels provided.

No need to measure

You can find your roof window's type and size on the roof window sash — see how on page 54. Then you can be sure that your new blind fits your roof window perfectly without having to take any measurements.

Easily replace your old blinds

It is straightforward to replace tired blinds with new ones from VELUX. You can still order blinds that fit almost every generation of VELUX roof window.

Do you need blackout?

VELUX Blackout blinds can help you create the perfect space for a good night's sleep or a refreshing daytime nap.

Protect your home all year
round with VELUX exterior
Anti-heat blinds and shutters.

Outdoor protection, indoor comfort all year round

Our wide range of VELUX exterior anti-heat products helps protect your home from overheating in the summer and provides extra insulation on cold days, keeping your indoor temperature comfortable. Our solar products use daylight energy as their power source, eliminating the need for wiring and offering a seamless installation from inside the room.

All year round temperature control

Create a shield between the sun's rays and your roof windows to prevent the direct sunlight from entering your home. This helps to keep the indoor temperature cooler, reducing the need for air conditioning and lowering energy costs. In colder months, shutters provide an additional shield from the outside to keep the warmth in.

Durability and longevity

Crafted from high-quality materials, our Anti-heat blinds and shutters are designed to withstand the harshest weather conditions, while maintaining their functionality and visual appeal for years to come.

Easy installation

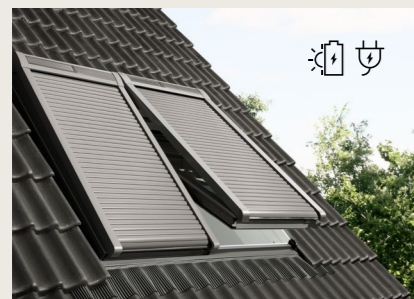

Designed to seamlessly match your VELUX roof windows, our products offer a hassle-free installation. With installation taking place from inside the room, you'll have your new Anti-heat blinds or shutters up in no time!

Discover the exterior blind or shutter that best meets the needs of your home.

Set the scene for
daytime living
and restful nights
with VELUX blinds

CO₂ reduced with recycled materials

Translucent roller blind RFY

Blackout roller blind DKY

Nature collection

For design and environmentally-conscious consumers, our Nature Collection roller blinds come in a range of colours that allow you to bring the peace and tranquility of nature directly into your home. The blinds are made from a minimum 50% recycled fabric and 75% recycled aluminium and have a lower carbon footprint than the standard option. This allows you to enjoy the same high quality as every VELUX product but, with a 50% reduced carbon footprint during production compared to ordinary VELUX blinds.

Blackout roller blind DKY

- Excellent blackout to darken the room.

Translucent roller blind RFY

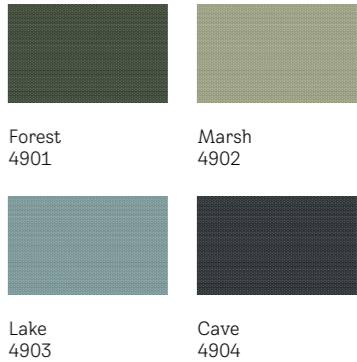

- Softens incoming light and provides privacy.

Blackout roller blind DKY and Translucent roller blind RFY

- Available with white or brushed aluminium side rails.
- Combine with an exterior Anti-heat blind or shutter for effective heat protection. Read more on page 28.
- Combine with an Insect screen to enjoy fresh air without unwanted visitors. Read more on page 49.

VELUX pleated blinds

A stylish layer of privacy that either softens or blocks daylight entirely

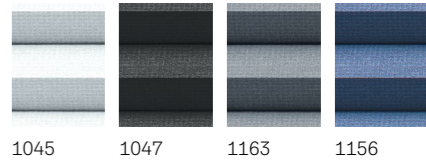

Blackout energy pleated blind

VELUX Blackout energy pleated blinds provide both blackout and insulation, making them ideal for bedrooms that require full darkness at night and additional warmth. Adjust the blind from both the top and the bottom of the roof window* to let in exactly the right amount of light.

- Along the bottom of the blind, the new slimmer profile on the solar and electric options provides an unobstructed view and maximum daylight.
- Blackout for a great night's sleep or a nap during the day.
- Insulation for increased comfort during colder months.
- A flying blind design that can be placed anywhere on the roof window.*
- Available with white or brushed aluminium side rails.
- Combine your manual blind with a manual Anti-heat blind and save 10%. Read more on page 28.
- Combine with an Insect screen to enjoy fresh air without unwanted visitors. Read more on page 49.

Translucent pleated blind

The VELUX Translucent pleated blind is a decorative solution that provides privacy whilst diffusing soft natural light into your room. Adjust the blind from both the top and the bottom of the roof window* to let in exactly the right amount of light.

- Along the bottom of the blind, the new slimmer profile on the solar and electric options provides an unobstructed view and maximum daylight.
- Softens incoming light and provides privacy.
- A flying blind design that can be placed anywhere on the roof window.*
- Available with white or brushed aluminium side rails.
- Combine with an exterior Anti-heat blind or shutter for effective heat protection. Read more on page 28.
- Combine with an Insect screen to enjoy fresh air without unwanted visitors. Read more on page 49.

Installation

- Quick and easy installation with pre-fitted brackets.

Intelligent home control

Combine your VELUX solar and electric product with our intelligent home control solutions for multiple operation, scheduling and automation.

Read more on page 16.

Insect screen

Enjoy fresh air without unwanted visitors with a VELUX Insect screen. The screen is simple to operate and can be combined with any other VELUX interior or exterior blind. It has transparent net fabric and stows neatly away in the slim top casing when not in use.

- 100% insect-proof material.
- Transparent net fabric does not obstruct your view.
- Durable, wind-resistant fabric for long-lasting performance.
- Standard 100 by OEKO-TEX® (1076-184) – textiles tested for certain harmful substances.
- STeP by OEKO-TEX® (22002567) – STeP stands for Sustainable Textile & Leather Production.
- The screen can be combined with any other VELUX interior or exterior blind.

Determine the correct size

- Measure the inner wall width (A) and height (B) to find the size code and price of your Insect screen in the table below.
- If you have two heights (B) or heights above 2400mm – two Insect screens and one connector set ZOZ 157 SWL are needed.

IMPORTANT:
Insect screen size codes may differ from window size code, please measure (A) and (B) and find correct size code in the table below before ordering.

Installation

- Quick and easy installation.

Important!
Remember to install blinds at the same time as rooflights

Blinds for curved and flat glass rooflights

Anti-heat blind

The Anti-heat blind provides light dimming and heat protection to maintain a cool and comfortable room. The blind is discreetly placed inside the rooflight, and is easily installed from the roof when installing the roof window.

- Reduces overheating.
- Semi-transparent fabric for light control and sky view.
- Solar-powered blind with remote control.
- Not compatible with Blackout blind.

Blackout blind

VELUX Blackout blind for glass rooflights blocks outside light anytime and is perfect for bedrooms. It is discreetly placed inside the rooflight and easily installed from the roof when installing the roof window.

- Perfect sleep — day or night.
- 99.9% blackout.
- Great for bedrooms and media rooms.
- Solar-powered blind with remote control.
- Not compatible with Anti-heat blind.

Insect screen

VELUX Insect screen for glass rooflights lets you enjoy fresh air and a view to the sky without the distraction of insects. It comes in a contemporary white design and is easy to install and simple to remove for cleaning.

- Fresh air and 100% insect-proof.
- Durable, transparent net fabric does not obstruct your view.
- Can be combined with an Anti-heat blind or a Blackout blind.

Order your new VELUX blind or shutter in five easy steps

- 1**

Locate your roof window type and size

Find your roof window type and size by checking the type sign placed either on the left or right side of the roof window frame when it is open.

See picture below for placement of type sign.
- 2**

Select blind or shutter type

Decide on the type of blind or shutter: blackout, light adjustment, heat protection, etc.
- 3**

Select operation

Select solar, electric or manual operation, depending on the placement and type of roof window.
- 4**

Select colour

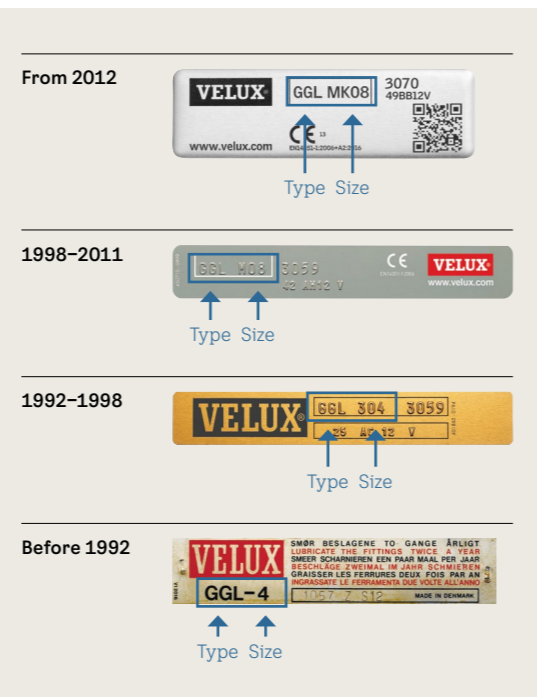

Each of our blind colours has its own colour code, which you can see on the respective blind pages.

You can order free fabric samples at veluxshop.ie

Please note: Precise colour may vary from the printed samples.
- 5**

Place your order

Order on veluxshop.ie, or by speaking to one of our dealers or a customer service representative.

Extras for your blinds and shutters

Rod control

ZCZ 080 80cm €20.91
 ZCT 200 telescopic 100-180cm €44.28

The rod makes it easy to operate out-of-reach manual blinds.

Rod adaptor

ZOZ 085 €12.30

Adaptor for manual blinds with control bars supports easy operation with the rod.

Mounting brackets

ZOZ 230 €8.61

For installation of blinds on older VELUX roof windows without pre-installed mounting brackets.

Installation kit

ZOZ 238 €39.36

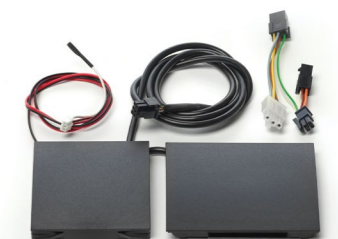

For installation of Anti-heat blackout blinds and electric Anti-heat blinds (SSS, MSL or MML) on VELUX roof windows from before 2001.

Installation kit

ZOZ 229S €66.42

For installation of Anti-heat blackout blinds and electric Anti-heat blinds (SSS, MSL or MML) on VELUX electric top-hung roof windows.

Dual solar switch

ZOZ 246 €83.64

Dual solar switch allows charging of both shutters and Anti-heat blinds on solar-powered VELUX roof windows. Dual solar switch is required if the shutter or Anti-heat blind is size C or F and installed on a solar-powered VELUX roof window.

Customer service

Could you use some advice when selecting your blind, or do you have a question about a particular product? Whatever your question, we're here to help and strive to respond promptly to all requests.
