

VELUX rigid sun tunnel TWR (tiles), 10"

VELUX®

Glazing 93E

Get the most natural daylight out of your VELUX sun tunnel with the rigid tunnel. The rigid tunnel has a super high reflective coating that delivers up to 98 % daylight reflectivity for optimum natural light conditions in your home, even on cloudy days. Recommended for lengths between 0.9 and 1.7 m and is effective up to 6.0 m using tunnel extensions.

- Experience more daylight and stunning light effects from the stylish glass diffuser with EdgeGlow.
- Bring daylight into spaces far from the roof top with the rigid tunnel extension sections.
- The elegant, maintenance-free exterior glass module blends with your roof for a streamlined look.
- Reflective inner coating with 98 % reflection rate maximises the amount of natural light that enters the room.
- White ceiling ring seamlessly integrates with your white ceilings.
- Comes with everything you need for a safe and watertight installation of your new VELUX sun tunnel.
- Easily enhance the energy efficiency of your sun tunnel by adding the low U-value kit solution that improves insulation.
