

## Quick guide to Dome Rooflights

Shapes				
				
Square	Rectangular	Circular	Circular Hemispheric	Pyramid square / rectangular

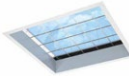

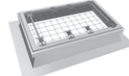

Upstands					
					
Vertical Metal, PVC, GRP	Splayed Metal, PVC, GRP	Circular GRP	Profiled Revolt GRP	Northlight GRP	Refurbishment adapter frame

Glazing						
						
1-skin dome	2-skin dome	3-skin dome	4-skin dome	5-skin dome	Hybrid From 1 to 4 skins + insulated glass panel or + 8mm safety glass or + 16mm PC Multiwall sheet	PC Multiwall Dome 1 to 2 PC Multiwall sheets

Glazing material and colour				
				
Acrylic (PMMA) opal / clear Sun protection (Heatstop)	Polycarbonate (PC) opal / clear Sun protection	Acrylic (PMMA) black	Acrylic (PMMA) coloured	Glass opal / clear

Special glazings					
					
Impact resistant	High fire classifications	Sun protection	Acoustic insulation or Sound reduction	Dark top for smoke and heat exhaust ventilation	Dark aluminium flap

Ventilation				
				
Ventilation integrated in upstand	Spindle actuator manually operated	Spindle, chain or rack actuator 230 V electrically operated	Spindle, chain or rack actuator 24 V electrically operated	Smoke and heat exhaust ventilation according to EN 12101-2

Safety systems				
				
Built-in fall-through protection system	Top-mounted fall-through protection system	Top-mounted force-absorbing grid	Fall-through protection safety glass	Burglary-resistant

Accessories				
				
Sun screening	Insect protection	Access hatch	Ladders and stairs Scissor stairs and safety ladder for roof access	Automation

Size options				
				

Standard size and made-to-measure Dome Rooflights are available
