

Please note:
Below 15 degrees:
- Any condensation that forms on the glass due to high humidity may drip
- Standing water and dirt left on the glass over time may cause smudging and corrosion on the glass

ELEVATION

SECTION B-B

* The upstand shall be the greater of 110 mm or the minimum requirements as set out in the Approved Document for New Zealand Building Code - External Moisture, clause E2

All flashing for VCM & VCE skylights are to be purpose-made to suit the roofing material, and subject to Approved Document for NZ Building Code - External Moisture, clause E2
