The ideal choice for schools, hospitals and offices, the VELUX clear acrylic dome gives high light transmittance and is made from a durable scratch-resistant material. The outer surface and natural drainage properties provide clear views to the outside. Compatible with VELUX blinds for daylight control, light dimming and heat protection.

- Clear dome lets in more natural light for brighter indoor areas and better indoor comfort.
- Enjoy comfortable control of heat and light with our complete selection of blinds for flat-roof windows.
- Enjoy a quieter indoor environment from the efficient sound reduction of outside noises.
- A scratch-resistant outer surface provides a high durability.
- Rain water and leaves are easily drained away, even in roofs with 0° pitch.
- Water and snow drains from the durable plastic dome because of its rounded shape.
- Find the perfect light and shade solution that meets your personal needs.

## Application guidance

The dome top unit can be installed with all base units within the roof pitch range of 0° to 15°.

Combine the dome with a base unit that meets your need for daylight and ventilation. Choose the electrically-vented base unit CVP for fresh air at the touch of a button or the fixed base unit CFP if your primary need is to bring daylight into the room.

NPD: No Performance Determined

# VELUX flat-roof smoke ventilation window CSP, Glazing 73FQV

The flat-roof smoke ventilation window CSP will automatically open in case of fire and meets all relevant EU legislative requirements. The window can be opened for fresh air when ventilation is needed. A burglar-proof construction provides additional security and a laminated inner pane prevents glass from splintering in the event of breakage.

- Tilted interior frame design increases the amount of daylight that enters your room.
- The maintenance-free white PVC base unit reflects more natural light to brighten your room.
- The high-quality motor opens quickly and quietly to provide fresh outside air.

# VELUX fixed flat-roof window CFP U, Glazing 73UT

An easy and effective way to bring daylight into rooms with little or no natural light, the fixed base unit CFP U transforms any space from dark and dull to bright and beautiful. ThermoTechnology™ insulation and energy-efficient double-glazing keep your home warm and increase your indoor comfort. Compatible with all VELUX flat-roof top units.

- Tilted interior frame design increases the amount of daylight that enters your room.
- ThermoTechnology™ insulation and double-glazed glazing increases overall energy-efficiency.
- The maintenance-free white PVC base unit reflects more natural light to brighten your room.

## VELUX flat-roof window CFP Q, Glazing 73FQV

The fixed base unit CFP Q transforms any space from dark and dull to bright and beautiful. A burglary-resistant construction delivers maximum security while an insulated ThermoTechnology™ construction and low-energy glazing with energy coatings help keep your home warm and energy costs low. Compatible with all VELUX flat-roof top units.

- Tilted interior frame design increases the amount of daylight that enters your room.
- ThermoTechnology™ insulation and double-glazed glazing deliver enhanced energy efficiency.
- The maintenance-free white PVC base unit reflects more natural light to brighten your room.

# VELUX flat-roof exit window CXP, Glazing 73FQV

The manually operated flat-roof exit window CXP opens extra wide to provide easy access to the roof. A laminated inner pane prevents glass from splintering in the event of breakage. Available with an acrylic and polycarbonate dome. The flat-roof exit window meets all relevant EU legislative requirements.

- Tilted interior frame design increases the amount of daylight that enters your room.
- The maintenance-free white PVC base unit reflects more natural light to brighten your room.
- Repairs can be performed without replacing the entire window thanks to the modular design.

## Cleaning and maintenance

Cleaning of the top unit is only possible from the outside. When cleaning the top unit, do not open the window. For electrical windows, switch off the mains supply.

To clean inner surface of top unit and outer glass surface of base unit, remove cover caps and screws to remove the top unit and fasten again after cleaning.

In regions with heavy snowfall, snow masses on the flat-roof window must be removed on a regular basis.

## Guarantee period

## Blinds and awnings

Complete your VELUX flat roof window with a blind for complete comfort. Choose from a range of blinds, including a translucent pleated blind for softening the light, anti-heat blind for heat protection and blackout energy pleated blind for darkening the room.

Use VELUX App Control or VELUX ACTIVE with NETATMO for smartphone control of your vented flat roof window and blinds.
