

VELUX rescue opening window GTL

VELUX®

Enjoy all the comfort of a high-quality VELUX roof window with the added peace of mind of knowing that it can be used as a rescue opening. The top-hung VELUX roof exit rescue window opens outwards to 67° to allow for escape in an emergency situation. Available in lacquered or white-painted pine wood to perfectly match your other VELUX roof windows.

- Opens to 67° to provide escape in case of emergency.
- Use the bottom handle to push open the window to rescue opening.
- Feel safe knowing the lifting device holds the window in place when used as a rescue opening.

CE

Application guidance

The window can be installed in roof pitches between 15° and 55° (up to 65° with special springs) to the horizontal.

VELUX top-hung rescue roof window opens outwards up to an angle of 45°. In an emergency situation, the sash can be opened to an angle of 67° by pushing it further up. The entire window opening now provides a quick and easy exit/entrance. The roof window is operated at the bottom with a handle on the bottom sash. To get the full benefit of the top-hung function, we recommend an installation height that allows for a clear sight line to the outside from both a standing and seated position. Please note that the optimum window height depends on the roof pitch.

Available sizes and daylight area

The size overview shows the availability across the different glazing variants. Please note that the individual glazing variant may not be available in all the sizes shown.

| | 780 | 1140 |

Flashings and installation products

Flashings

Install the VELUX roof window in virtually any roofing material by using genuine VELUX flashing solutions. Our flashings are designed specifically for the exact size and shape of the roof windows to create perfect, watertight fit. Flashings can also be used to combine multiple roof windows.

Installation products

Ensure a proper installation and an air- and watertight connection between the window and roof with VELUX installation products. All installation products are designed to perfectly fit the roof window for a reliable and durable result.

Blinds, awnings and shutters

Complete the VELUX roof window installation with roller shutters and awning blinds for heat protection and interior blinds for light dimming, blackout and insect protection. Choose from a wide range of manually operated or remote-controlled products that are made to fit the particular window type and size. Please contact your local VELUX sales company for more details about compatibility.
