

VELUX dome ISD 0010

VELUX®

The VELUX clear polycarbonate dome offers extra impact resistance and fire protection. The clear outer surface and good natural drainage properties deliver a clear and undisturbed view to the outside. Compatible with VELUX blinds for daylight control, light dimming and heat protection.

- Clear dome lets in more natural light for brighter indoor areas and better indoor comfort.
- Enjoy comfortable control of heat and light with our complete selection of blinds for flat-roof windows.
- Enjoy a quieter indoor environment from the efficient sound reduction of outside noises.
- Polycarbonate design delivers additional protection and fire resistance.
- Rain water and leaves are easily drained away, even in roofs with 0° pitch.
- Water and snow drains from the durable plastic dome because of its rounded shape.
- Find the perfect light and shade solution that meets your personal needs.

CE

Application guidance

The dome top unit can be installed with flat roof window base units (CFP, CVP, CXP, CSP) within the roof pitch range of 0° to 15°.

Combine the dome top with a base unit that meets your need for daylight and ventilation. Choose the manual-vented CVP for fresh air through the roof, or the electrically-vented CVP for convenient ventilation at the touch of a button, or the fixed CFP if your primary need is to bring daylight into the room.

Available sizes and daylight area

Dimensions in the size diagram indicate the roof opening. For electrically operated windows, an additional clearance (typically 1 cm) must be provided on the side designated for cable installation, as specified in the applicable installation guidelines.

	600	800	900	1000	1200	1500
600	ISD 060060 (0.19) [0.12]					
800		ISD 080080 (0.40) [0.16]				
900	ISD 060090 (0.32) [0.14]		ISD 090090 (0.54) [0.18]			
1000				ISD 100100 (0.70) [0.2]		
1200			ISD 090120 (0.76) [0.2]		ISD 120120 (1.07) [0.24]	
1500				ISD 100150 (1.11) [0.23]		ISD 150150 (1.78) [0.3]

All measurements are in mm. () = Effective daylight area, m² [] = Geometric free area, m²

Net Weight

Please note that a complete flat roof window consists of a top unit and a base unit supplied separately. The total weight of the complete solution must therefore be calculated by adding the unit weight of the top unit and the unit weight of the base unit, as specified in their respective data sheets.

Blinds and awnings

Complete your VELUX flat roof window with a blind for complete comfort. Choose from a range of blinds, including a translucent pleated blind for softening the light, anti-heat blind for heat protection and blackout energy pleated blind for darkening the room.

Use VELUX App Control or VELUX ACTIVE with NETATMO for smartphone control of your vented flat roof window and blinds.

Cleaning and maintenance

Cleaning of the top unit is only possible from the outside. When cleaning the top unit, do not open the window. For electrical windows, switch off the mains supply.

To clean inner surface of top unit and outer glass surface of base unit, remove cover caps and screws to remove the top unit and fasten again after cleaning.

In regions with heavy snowfall, snow masses on the flat-roof window must be removed on a regular basis.

Guarantee period
