

# VELUX manual, bottom-operated 3in1 roof window GPLS

**VELUX®**

Enjoy the best view with the panoramic VELUX 3in1 roof window GPLS with two windows in one frame. The elegant handles at the bottom of the operable windows allow it to be opened up to 45° for an extra spacious balcony feeling.

- Refresh your home by opening one or two windows according to your needs
- Open the window outwards up to 45° to enjoy a panoramic view and a feeling of space.
- One frame module allows a simple well-known installation process with few components.
- Enjoy an extensive view to the outside and more daylight due to extra slim frame profiles
- Easily rotate the window 180° for safe cleaning of the outer glass from the inside.
- One-piece top cover and slim profile covers feature a very aesthetic integration in the roof.
- Adjust the bottom handle position to ventilate your home without opening the window.

## Application guidance

The window can be installed in roof pitches between 15° and 55° (75°) to the horizontal.

VELUX 3in1 manual roof window GPLS opens outwards for an unobstructed, panoramic view. It consists of three windows, two openable, bottom-operated and one fixed, in one frame. This provides extra daylight and an extensive view while offering all the benefits of our bottom-operated windows. To benefit optimally from the wide view, we recommend an installation height that allows for a clear sight line to the outside from both a standing and seated position.
